

CASE STUDY

Project:

Integrated vessel workshops

MMS

SHIP REPAIR • OFFSHORE • WORKBOATS

Project Summary

MMS Crusader facilitates operations on the Hornsea One and Two offshore wind farms.

Challenge

- To support operations on the Hornsea One and Two offshore wind farms
- To provide fast delivery transporting personnel and cargo to the offshore location
- To ensure the client project is delivered on time and within budget.

The Solution

- A 26-meter, multi-purpose high-speed catamaran ensuring fast delivery of services from our strategically located support base in Grimsby
- Fully specified to DNV-GL R1 Notation
- 80 square meter deck, capable of carrying 2 x 20ft or 4 x 10ft containers with a total weight of 16 tonnes
- Powered by twin 1350hp main engines running fixed propellers and bow thrusters to ensure excellent manoeuvrability and holding power on station
- A crew of highly-trained personnel, educated to the latest training standards, ensuring safe transportation and project delivery.

Why MMS

- Over 35 years of experience delivering services to the marine industry
- A long history of service provision to the ship repair industry
- Unrivalled industry knowledge combined with first-class facilities
- A team of highly experienced, highly skilled, long-serving tradesmen, regarded as some of the best in the industry.

Key Achievements

- Project delivery on time, on budget and to full client specification
- Strengthening the reputation of MMS Offshore as a key player in providing support services for the offshore renewable industry
- Maintenance of robust safety management, ensuring the safety of our client's operatives and engineers throughout the project.

- A full turnkey offering from vessel support to ship build, conversion and repair from our own shipyard in Hull and support base in Grimsby
- Extensive facilities comprising: two dry docks accommodating vessels up to 150m length, 19m beam and 6m draught and two repair quays for vessels up to 150m length, 23m beam and 8m draught
- A commitment to employing local people and utilising the local supply chain to deliver best-in-class services with zero contracting.
